## **Cardinal Rule Consulting**

**2010-Present**

Provided IT consulting and development services to clients. Services provided include: systems and network analysis; installation, configuration, support, and repair of IT hardware and software for homes and businesses; end-user support of Windows, Mac OS X, and iOS systems; web site development and support; creation and editing of technical documentation; and development of custom desktop, mobile, and web-enabled applications using FileMaker Pro, FileMaker Go, Objective-C and Cocoa.

## **Robert Half Technology**

**2008-2010**

Designed, developed, and tested custom database applications for outside clients using FileMaker Pro Advanced, FileMaker Server and MS SQL Server. Provided advanced technical support for OS X and OS X Server.

## **California State University, Northridge**

**2001-2007**

Designed, developed, and tested custom web and database applications for faculty and administration using Microsoft (MS SQL Server + ASP) and LAMP (MySQL + PHP) platforms. Provided instruction in previously mentioned technologies and technical support and instruction for faculty, staff, and student desktop users.

## **Stratisoft, Inc.**

**2000-2001**

Designed, developed, and tested dynamic web pages and web applications for external clients using FileMaker Pro, Active Server Pages (ASP), and MS SQL Server. Performed light server administration.

## **DreamWorks SKG**

**1996-2000**

Responsible for all phases of IT Department purchasing and asset management for DreamWorks Interactive. Designed and developed custom database application to facilitate execution of said processes. Later promoted to Programmer/Analyst to create similar desktop applications as needed for Executive and Production personnel.
